

Vita Dr. Thomas Altenbach

Founder and CEO LegalTegrity GmbH | Lawyer with focus on compliance and digitalisation

Dr Thomas Altenbach is a compliance expert with a passion for integrity and innovation as well as for long-term business success. As a lawyer in international corporations and as an advisor to medium-sized companies, he became one of the most sought-after compliance specialists. Before founding LegalTegrity, he supported numerous well-known global companies such as Deutsche Bank, Daimler or Evonik as a consultant in the complex issues of corporate law, compliance and corporate liability. In addition, as a lawyer at the law firm AC Tischendorf, he was responsible for the design and implementation of compliance management systems as well as antitrust compliance and advised on the implementation of legal tech tools.

In addition, Dr Thomas Altenbach is a speaker at renowned events and is consulted by international organisations such as the OECD and the Council of Europe as an expert on compliance issues.

In his professional career, he was able to observe the success of whistleblower solutions: They contributed to an improvement in transparency and helped to reduce violations. Driven by the desire to make this opportunity available to SMEs, he founded LegalTegrity in September 2019 together with a team of lawyers, compliance specialists and consultants. The company offers a digital whistleblowing solution that takes the specific needs and requirements of SMEs fully into account - easily and without IT implementation.
